

1. NCad Opinion `Transition to non-animal research`

Netherlands National Committee for the protection of animals used for scientific purposes (NCad)

15 December 2016

Transition to non-animal research

on opportunities for the phasing out of animal procedures and the stimulation of innovation without laboratory animals

Opinion of the Netherlands National Committee for the protection of animals used for scientific purposes (NCad)

- 1.** Is the report considered by national competent authorities (NCad-like)?
- 2.** Influence on animal research discussion?

2. Review process: Directive 2010/63

Information/Intelligence: public discussion regarding Directive 2010/63 and review process on national level by policy-makers, experts and civil society groups.
