Why is BBC needed ?

- To have a sufficient critical mass and speak with one strong enough voice able to influence policy makers and budgets holders at the national level
- To act at national research programme
- BBC is the best common instruments to contribute to the alignment of national research policies to EU policies

BBC priority

- Define with our stakeholders a strategy, propose to policy makers concrete actions to raise awareness and means to alleviate the burden of the endless increase of costs for brain diseases

2017 Activities

- Brain Awareness Week coordination
 - (8 events in Brussels, Liège and Namur)

- Co-organized BAW event at the European Parliament in Strasbourg with EBC, EPA, FBC and FENS
